DETAILED ACTION

In response to the amendment filled on 3/25/2004, all the amendments have been entered and the action follows:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams (US 5231680).

With respect to claim 2 and 3, Williams discloses distinguishing between the valid and invalid samples based on the auxiliary data, (see col. 3, lines 40-42, the valid and erroneous pixels "valid" and "invalid" pixels are distinguish by their error bit "auxiliary data"); filtering the data and padding if valid the input is used and if in valid padding is used depending upon the valid samples, (see col. 3, lines 5-20 and col. 3, lines 35-50, the fixed size of 16 bit pixels are used as the input data and if the pixels are valid no correction is placed i.e. the pixels are filtered out and if the pixels are erroneous "invalid" the weighted values of the adjacent pixels are used as the padding values) as claimed.
